

Final Service Changes Fall 2017

Service Changes Effective October 1, 2017

SERVICE INCREASES

Route 25 (N Academy Blvd - Voyager Pkwy) weekday, daytime frequency will be increased from 30 minutes to 15 minutes. Route 25 is one of the top three highest ridership routes in the system and is the next target corridor for increased frequency of service. We are continuing with our objective of improving our hub-and-spoke system by implementing a series of high-frequency transit routes.

Route 33 (Incline/Cog Shuttle) will operate from 6:00 AM until 8:00 PM seven days per week just like the current summer service. Previously the off-season service ended at 6:00 PM.

ROUTE IMPROVEMENTS

Route 10 (Hwy 115 - PPCC) and Route 11 (World Arena - PPCC) will receive an additional vehicle for the weekday daytime operation to improve on-time performance and route reliability. By incorporating one (1) additional vehicle into the schedule, delays can be absorbed with additional recovery time and adjusted running time, ensuring each trip starts on-time and remains on-time.
