You are in the Wildfire Mitigation workspace.

Home | New Chipping Request

Welcome to the Colorado Springs Fire Department Wildfire Mitigation Neighborhood Chipping Sign Up.

As part of the tagline "Sharing the Responsibility" the Wildfire Mitigation Section is dedicated to helping neighborhood organizations and homeowner's associations address wildfire risk. The CSFD neighborhood chipping service offers homeowners free curbside chipping and hauling when they do mitigation work on their own property.

To participate, homeowners must attend a wildfire mitigation meeting or schedule a free on-site consultation. This is done to engage neighborhoods and educate homeowners on wildfire mitigation concepts. The intent of neighborhood chipping is not debris removal, landscaping or cleanup. Rather, the intent is to reduce the risk of wildfire, modify fuels adjacent to structures and reduce fire behavior in the event of a wildfire. To schedule a free on-site consultation call the CSFD Wildfire Mitigation office at 385-7281.

To sign up for neighborhood chipping click on the "New Request" button above. Once you have completed the form (Fields in red* are required), click on the "Save" to submit the request.

SAVE

- Select "SAVE" to submit the chipping request

4. SUMMARY SCREEN

Your saved request will appear on the summary screen. A reminder email will be sent 1 Week before the scheduled chipping date to the email address provided at login.

The screenshot shows a web application interface for wildfire mitigation. At the top, there is a navigation bar with a logo on the left, a search box with a "SEARCH" button and a dropdown arrow, and user information "Hello, Mickey M" with "Sign-out" and "Help" links. Below the navigation bar is a breadcrumb trail: "Home" > "New Chipping Request". The main content area features a heading "Welcome to the Colorado Springs Fire Department Wildfire Mitigation Neighborhood Chipping Sign Up." followed by three paragraphs of text explaining the service and how to sign up. At the bottom, there is a table titled "My Chipping Requests" with a dropdown menu and a "1 - 1 of 1" indicator. The table contains one row of data.
